# What We Do

## Rate Check

- › Check 3 live rate transactions for cash/tom/spot and forward.
- › Compare live rates with the rate offered by your bank.
- › Our App will give you the exact calculation of Profit or Loss in that transaction.

## Forex Transaction Processing

- › Ease of execution and bank negotiation.
- › Get transparent rates with access to recorded conversation.
- › Deal cover in less than 2 minutes.
- › Access to screenshots at the time of execution.

## Historical Rate Check

- › Check past forex transactions done with their banks within a period of 1 year.
- › Check cash and forward transaction and find out if you have been overcharged previously or not.
- › Check 3 Historical audit of your transaction [www.routeforex.com](http://www.routeforex.com).

## Trial Transaction

- Demonstration of the way we execute the transaction and do the savings.
- Avail a maximum of 3 Trial Transaction.
- Avail the service today at very minimal cost.

## Forex Risk Advisory

- Interaction at regular intervals, which will keep you updated on Forex market, moves to take place about how it will affect your position and about the measures to be taken to combat such moves.
- Understanding in detail your foreign currency exposures and helping you to manage them efficiently.
- Monitor benchmark levels set up by you for the exposures and facilitate decision making. Customized advisory on regular basis.

## Forex and Commodity Advisory as Profit Center

- Help you in setting treasury profit unit with defined profit target and define the road map for achieving it.
- Help in reducing the interest cost and bring down the hedge cost by managing the exposure end to end with the help of multiple forex products in OTC and Exchange.
- Facilitate and manage exposure in OTC and Exchange.
